Subject: Pillon interview

---

Mr. Fowlow and Ms. Leefers;

Mr. Pillon has requested that I set up an in-person (if possible) interview with Jeff. I assume he wants it to be in-person so he can either show you a map of his property or draw you a picture of it and trace what he believes the water flow to be and then correspond that picture to where your samples were taken. We can have the interview at my office in Seattle or at EPA in Seattle or some other location convenient to both of you (Jeff - I actually don't know where you are stationed). My thought is that we will get together 15 minutes or so prior so I can answer any questions you have and again go over the interview process and case.

Mr. Pillon is available tomorrow, but I told him that that was rather short notice and I was doubtful all the required parties could make themselves available. If that does not work then we are looking at some time after January 15 as I am out of town until then.

Please give me some dates and times that will work for you both.

Thank you for your ongoing patience with this cumbersome process.

Scott A. Marlow  
Assistant Attorney General  
Counsel for Environmental Protection  
800 5<sup>th</sup> Ave Suite 2000, TB-14
